

49th CHAMPIONS CUP INVITATIONAL

April 28th – May 1st, 2016
Champions Golf Club

March 17th Cup Update

With the 49th Champions Invitational Cup only 6 weeks away, we wanted to provide update information and one request.

First of all, the Cypress Creek course has come through a mild winter, is in excellent shape now. With the rain last week and now 80-degree temperatures, the course is surging into fantastic spring growth...and has greened up almost overnight.

The greens are "perfect", easily running now at a smooth 10+ on the Stimpmeter, so we expect perfect conditions both in fairways and green complexes for the Tournament.

Secondly, we have a very strong full field (average player handicap of +2.0) and a sizable, equally strong "alternate list" standing by. We have excellent representation across the United States, and International representation with a Team from Japan in the field.

Thirdly, here is the request. If you would like for us to submit to your local/hometown news source (paper or electronic), please provide your local media name, e-mail contact information and phone number. We will make sure that this contact gets the nightly update, and any video/photo's we may have for that day's round. While we cannot guarantee that your local media will utilize the information we provide, we can assure you that they will receive it.

Additionally, we will be sending periodic email updates as well as posting information to the Champions Golf Club website on the 2016 Champions Invitational Cup.

Looking forward to seeing all of you in late April here at Champions Golf Club!
